Subject: sampling materials and supplies

Glenn, we are going to need some materials and supplies from WAL-MART, ie. 2-liter ziploc bags, packing tape etc. depending upon what we have left in house, which we won't know for sure until you have cleaned out the coolers. All this must be determined next week so Lisa and I can get a list together of what we need. In the meantime, if you are going to make a Wal-mart run for something else, let me know, and we get give you a partial list.
Thanks.
